MBA FINANCE • FINANCIAL ANALYSIS • BUSINESS ANALYTICS

MBA Finance graduate with hands-on internship experience in financial analysis, business analytics, dashboard reporting, portfolio optimization, and fraud-risk analytics. Skilled in Excel, Power BI, Tableau, Python, and financial statement analysis. Focused on turning financial and business data into clear insights.

## EXPERIENCE

SkillFied Mentor — Jul 2025 – Aug 2025
Financial Analyst Intern • Remote
- Analyzed financial and transaction data to support investment, portfolio, and risk-focused projects.
- Simulated 10,000 portfolios across 15 assets using Modern Portfolio Theory to compare risk-return combinations and Sharpe Ratios.
- Built a fraud-detection workflow using SMOTE and Random Forest, achieving 96% precision and 78% recall on the project dataset.

Unified Mentor — Sep 2025 – Nov 2025
Business Analyst Intern • Remote
- Developed financial performance and profitability dashboards to track revenue, profit, margins, discounts, and key performance indicators.
- Analyzed performance across 5+ countries and 6 product categories to support clearer business comparisons and reporting.
- Translated dashboard findings into concise, decision-oriented insights for business performance review.

JHT Smart Steps Learning — Feb 2023 – Jun 2025
Co-Founder and Teacher • Sangli, Maharashtra
- Co-founded and managed day-to-day tutoring operations, coordinating learning activities and student support.
- Planned lessons, tracked learner progress, and communicated learning priorities to support consistent delivery.

Tanishq, Titan Company — Jan 2022 – Jun 2022
Retail Sales Associate • Sangli, Maharashtra
- Supported customers with jewellery selection and product information while maintaining a professional service experience.
- Assisted with store operations and product presentation in a customer-facing retail environment.

## SELECTED PROJECTS

Financial Statement Analysis, Hindustan Unilever Ltd. (HUL) (Jul 2025)
- Evaluated FY 2018–19 to FY 2023–24 financial statements using profitability, liquidity, efficiency, leverage, and market ratios.
- Collected 42 survey responses as supporting primary research and combined findings with secondary financial analysis.

Financial Performance and Profitability Dashboard (Sep 2025 – Oct 2025)
- Built a dashboard covering revenue, profit, margins, discounts, and KPIs across 5+ countries and 6 product categories.

Global ESG Data Insights Dashboard
- Visualized 50+ ESG indicators using World Bank data spanning 1960–2023 to compare long-term sustainability trends.

Tech Stock Market Analysis Dashboard
- Analyzed AAPL, Alphabet, Microsoft, and Netflix stock data for February–June 2023 using dashboard-based comparisons.
